Subject: Feedback

Hi my name is Adam Soumelidis I am a fish processor from Albany w.a ,I own a processing factory with a retail shop I also have my own fishing vessel and a big chunk of the fishing units licenses from Chatham island west of Albany to the south Australia border,and I also buy from other fishermen from here. My main concern is the proposed marine park around the Bremer Bay Area the green strip that goes all the way up to the state waters as that is a very important part of our fishing grounds so by closing that off will impact greatly to us so we would be seeking to be compensated on that . Originally it was discussed with us that the green zones would start at the 800 metre isobath and out to the deep which will have no effect on us . So please talk with us on this matter as it very important thank you.
