

Since the “Feedback” button on your website doesn’t work, I’ll give you mine here:-

To ban small boats from anchoring in the Ningaloo Marine Park is downright dangerous to recreational locals & visitors and some tourism operators. This proposal indicates lack of research and knowledge of basic safety requirements for small boat operators and fishing, diving and snorkelling enthusiasts. It will also adversely affect local tourism operators.

To require commercial news and television journalists to seek approval for 'day-to-day news' or to apply any restrictions to them when reporting anything to do with Marine Parks, smacks of Nazism. Your request for comment on your proposal to change the name of affected areas from 'reserves' to 'parks' demonstrates the blinkered stupidity of inept public servants in your 'Department' who cannot make a decision upon something so banal. Who on earth cares what you call them you overpaid, underworked bunch of fools?

Publish this if you dare! Idiots.
