

Mr Burke

Please do not cut the protected areas set aside as marine parks.

the oceans are under tremendous pressure from over fishing & illegal fishing with many species on the verge of collapse .

Marine park areas play a terrific regeneration role as shown around the New Zealand Coast .

Please follows suit as as shown in New Zealand in as little as a decade species can & do recover !

Regards John Forbes - Construction manager Fluor Corporation
-FDHJV Project - Clean Fuels - area 1 - Mina Abdullah
Refinery Kuwait !
