

Dear Sirs/Madams,

It is beyond my words description the horror I feel that my government is reducing Australia's Marine National Parks!

How is this possible and requires an explanation to all Australians.

The Coral Sea, Marion Reef, Osprey Reef and Shark and Vema Reefs need to be reinstated for the protection of all marine life and the wellbeing of human life on our precious earth.

Why have you done this? I believe I am entitled to an explanation please.

Ludmilla Lysenko
