

**Dear Marine Management Planning.**

**I am constantly signing petitions and writing letters about our marine protected areas - for the protection to be maintained, for the areas we oversee to be enlarged, not shrunken, for certain destructive types of fishing practice to be curtailed and not enlarged.**

**No-one listens.**

**When will our Govt wake up to the fact that plundering food resources until they die out is not sustainable. Human life cannot be sustained on No Resources. Destroying the habitat of food resources of food is going to kill us all.**

**It's quite simple really.**

**Ghillian Sullivan**

Lecturer in Vocal Production, UNSW & Avondale Conservatorium

Artistic Director of Festival Opera Newcastle
