Does your comment relate to the renaming of marine parks? No Please type your comments below: As a general public member I have travelled to many other countries and seen ar first hand those countries that have and fully protect their marine sanctuaries are able to continue to support a thriving fishing community elsewherer on their coastlines as the marine parks provide a nursery of brood stock fot the fisheries to continue. If you fish out the broodstock, other fishing communities elsewhere suffer. Also we need to protect the broodstock from large industrial type super trawlers that are indiscriminate in their catching methods. We should also be looking at ways to expand these areas instead of decreasing them!!,
