

Dear Sir / Madam,

I'm emailing you to voice my opposition to the proposed changes to the Marine Park protections.

As a small business owner, a conservative minded voter and an avid ocean enthusiast, I am deeply saddened by this development.

I find it difficult to comprehend that Australian governments would allow Japanese shipping vessels to operate in Australian waters. By allowing this change to Marine Parks, I believe this indirectly condones the behavior of Japanese governments and whalers and does not reflect the wishes of the majority of Australians.

Please keep the existing protections in place for the future health of oceans and the tourism businesses that assist in bringing this unique and beautiful environment to visitors both domestic and from overseas.

Kind Regards

Tyrone Wiseman
