

Truly... is there nothing the Liberals won't exploit, sell off or trade off in the interests of appeasing the people that got them into power? Our lands, our air and now so much of our waters... You act like it's yours to sell. It's not. It's ours. The Australian people. And their grandchildren. If you want to give it away you need to ask us for our permission.

I think you know what we'll say.

Hands off our protected marine parks. They're yours to manage, not exploit. Anyone can sell something, your job is supposed to be to manage it.

Nikki Beynon
