

To whom it may concern,

I am writing to ask that you cancel the proposed changes to marine national parks, specifically the removal of the highest levels of protection.

As someone who cares passionately about the protection and sustainable management of our biodiversity I was hugely proud of the world leading approach the marine protection.

To have that so significantly wound back is incredibly disappointing.

No Government ever has taken this many hectares out of conservation before. It's the largest backward step in areas under conservation in history.

Please ensure the ongoing protection of the marine parks by abandoning the current proposal.

Kind regards

Claire Coulson
