Your submission will still be considered in the Director's Report on the Preparation of the Management Plans, and may be provided to the Minister and tabled before

Parliament: Yes

Does your comment relate to the renaming of marine parks? No Please type your comments below: I question if there is any science and sometimes logic or common sense. Crop rotation on the land is logical and it works. Apply the same principle to recreational fishing, it works zoning places where you cannot fish at all does not preserve areas for us to enjoy it stops us from doing what we have done for generations. The lockouts are irrational and driven by a minority.
