I would like to note that the currently drafted proposals are a workable compromise for all users.

I have been made aware that fringe green groups and foreign interests are trying to dictate changes to governing bodies resulting in additional lock outs in and loss of use to recreational fishers and boat users. I would urge you to understand that their views do not represent the wishes of the majority of users.

I do not want changes from the current plans and as concerned citizen I ask that Government does not make changes to satisfy the wishes of the vocal minorities.

Please respect the wishes of the majority and ensure that water remain open to as many users as possible.
