

Dear Josh

You seem like a lovely person when I listen to you on the radio.

I feel like your trapped in this madness of cutting the sanctuaries because of the fossils that you reside with at the house that is now out of bounds to us.....!!!!!!!

Don't think of your party, think about the future of your children and theirs. At least we could go down in history as saving something on this planet. Heaven to Betsy think about our future. PLEASE!!!!

Barbara Zulsdorf
