

Minister

Please reconsider the intention of removing protection from our marine parks You should NOT do this because:

1:Pandering to lobbyist's who have commercial skin in the game leaves you and them with no moral ground to stand on 2:To do so will be the last political nail in the conservative coffin 3: it's the right and ethical thing to do I am a conservative voter , please start making more astute political decisions or you and Turnbull are going to hand power back to those less fit to govern
