

Dear Minister ,

Please leave the Marine Parks alone , many of us spent years consulting with our communities to get a fair outcome which I believe we did . Now when you want to start cutting them back of course those who did not get all the wanted will support you.

Please I beg you leave them alone for our future generations, we will all be so proud of our decision in years to come. I fear this is a very destructive Government, held to ransom by one very disgruntled ex PM who we all feel very embarrassed about.

Kind regards

Pip Rasenberg
