

Hullo, hullo, hullo. Is anybody there?

WE NEED TO DO MORE (NOT LESS) TO PROTECT ALL OUR MARINE ENVIRONMENTS.

MOTHER NATURE FEEDS US AND ITS CREATURES, BUT WE HAVE TO STOP POLLUTION AND WE

MUST STOP BIG COMPANIES FROM DESTROYING WHAT WE HAVE.

WHEN THE OCEAN FLOOR IS DAMAGED IN SOME CASES IT NEVER RECOVERS OR IT CAN TAKE A HUNDRED YEARS OR MORE TO RECOVER. WHEN THE SEA GRASSES ARE GONE, THERE IS NOTHING FOR THE FISH TO EAT, SO THE FISH GO ELSEWHERE. DO NOT DESTROY THE FISH BREEDING AREAS.

WE MUST STOP POLLUTION, ESPECIALLY FRACKING. DANGEROUS POISONS ARE BEING USED IN AUSTRALIA IN THE FRACKING PROCESS. THESE POISONS ARE SO BAD THEY ARE BANNED IN USA. WAKE UP AND BAN THEM HERE. THESE CHEMICALS ARE THE PRIMARY REASON THAT THE GREAT BARRIER REEF IS DYING.

THESE POISONS GET INTO THE WATER WAYS AND OUT TO SEA.

******* THESE POISONS ARE GETTING INTO THE ARTESIAN WATERS THAT ALL OF CENTRAL AUSTRALIAN PEOPLE USE TO DRINK, GROW THEIR FOOD AND WATER FOR THE BIRDS AND ANIMALS.**

STOP BIG COMPANIES DESTROYING THIS COUNTRY. DON'T GIVE THEM A LICENCE TO BE ENVIRONMENTAL CRIMINALS!!!!!!

BETH LAWRIE
