

Minister Frydenberg,

I am a strong Liberal supporter.

I find the suggestion that marine parks will be decreased as deeply concerning.

I have frequently visited marine parks and have been impressed by

1. Tourist interest in the areas
2. The wealth of marine life (compared to unprotected areas)
3. The presence of commercial fishing boats at their boarders

From the commercial fishermen I have only heard ridiculous statements. For example, in my area they stated that by removing the Australian Salmon they were making it much safer for swimmers because the salmon attracted sharks!!!

The only thing that surprises me is that these parks were established by the Labour Party.

I have continued to support the Liberal Party but this would be a step to far.

Sincerely

Bruce
