

Coral Sea should be doubled in size rather than reduced at the Marine National Park. Marion Reef. Osprey Reef, should similarly be doubled in size in the Marine National Park.

Midwater trawling should be banned. We need our oceans, we need the Reef, we need environmental preservation and we do not need more coal, fossil fuel burning, and pollution.

You might ask why? My thought is that corporations have ripped off the public for far too long, and the profits from their destruction of the environment have been captured by a .01 percent of the elite - the public is losing big time, again and again.

My 2 cents worth of thought on the topic . . .
