

Dear Mr Frydenberg,

Please be advised that I am shocked at your proposed reduction of protected marine sanctuaries. The very last pristine marine areas are to be threatened with commercial trawlers mining the ocean floor, leaving nothing in their wake! Long-line fishing which catches not only fish but also sea birds, turtles and dolphins. What a disaster this would be, what a dumb idea!!

Emphasis on environment protection and eco-tourism has more long-term economic benefit than the Turnbull's Government's short-sighted, thoughtless proposal of cutting the marine protected areas by 50%. Your government should cherish and protect these areas from illegal fishing and commercial fishing forever.

I will never vote Liberal again if the protection on these marine areas is removed.

Yours sincerely,

Kevin Snell
