

Dear Minister Frydenberg

Please, please, please do not reduce Australia's marine parks and marine sanctuaries. This would be a tragedy for the future health and survival of all marine species. We must seriously acknowledge and stop the ongoing damage to our oceans and marine life.

Please respect and ensure a safer future for our marine parks, we love them for recreation, relaxation and a reminder of how spectacular underwater nature can be. Please do not be responsible for destroying them.

Yours sincerely  
Shirley Benlow
