The initial Submission with park layouts and Plans met the needs of all Australians. Consideration of variations to these plans as suggested by overseas groups do not meet the needs of Australian boaters/fishers/divers/rec users. Especially submission by such organisations as PEW. This organisation has shown they do not have the best interest of Australia in mind and have continually been found to ignore their own recommendations. In recent months it has been shown that where PEW was successful in changing submissions stopping existing activities they have then followed up by mass euthanasia of animals that were no longer utilized as a result of their interference and were handed over in accordance with their submissions.
