

Hello,

I am writing to show my concern about the intended cuts to marine / ocean protection funding.

I feel very strongly about this matter and believe is very important to protect our oceans and the animals within it.

It isn't something as to which we can let worsen and it will get better on its own, it is our responsibility as a nation and as earth dwellers to ensure themse treasures are taken care of.

I sincerely hope you will reconsider your plans to cut funding.

Thank you.

Tiffany Alaban
