

Hands off our Marine Parks!

Please listen to the Communities who revere and adore our Marine Environment and the Marine Sanctuaries that ensure its' survival.

My family have protected Endangered Ecological Communities on our property as we consider that we are stewards of our land.

Just as you, the Government are stewards of Australia's magnificent marine environment.

You are beholden to protect and preserve in perpetuity this marine biodiversity.

Do not be swayed by greed and self serving commercial fishing industries that have questionable, ethical and unsustainable practices.

Yours Sincerely

Mr and Mrs Bruce and Lesley Lane
