

..... I CANNOT state this clearly enough.....

**\*\*\* !!! IF WE DO NOT NUTURE NATURE.... HUMANITY WILL SURELY DIE !!! \*\*\*\*\***

We MUST protect & preserve all natural aspects of this planet that sustains us.... You've got to get it through your THICK BEAUROCRATIC heads that Money does NOT, if fact, sustain life.... when you mess with Mother Nature you mess with your very own life. PRESERVE, PRESERVE, PRESERVE.... anything less is taking ALL of humanity down a suicidal path & YOU are making choices for ALL of us.... ACT wisely, not with greed.

To anyone with an environmental awareness this is OBVIOUS. Open your eyes.... BEFORE it's too late. Make NO mistake, we are on the brink of natural catastrophe, every single choice will tilt the scales for better or worse.... AGAIN.... choose wisely.
