Dear Minister for Environment

Australia's Marine National Parks are precious and invaluable. The intrinsic value of the ocean cannot be quantified in dollars or measured by the industries that rely on it as a source of income.

Please, don't reduce the protected areas of Australia's marine National parks. We need to protect them, make them larger and stop all activities that harm the ocean and the species that live in it. It is our responsibility as humans to protect the environment on which we depend as a species.

Please don't reduce the size of your protected marine areas and don't allow activities that will hurt or damage the ocean and its inhabitants.
