

Dear Management Planning team,

After seeing the film, A Plastic Ocean, last week, I feel compelled to do everything I can to protect the amazing ecosystems within our Oceans.

Plastic pollution is just one problem but with overfishing, oil spills, coal barges, agricultural fertilisers all adding to the destruction of this once pristine environment, sanctuaries should be the very least we can offer it.

Please do not cut our marine sanctuaries.

Kind regards,
Kate Hook (and on behalf of my 4 children.)
