

Dear Mr Turnbull,

I voted for the Liberals at the last Federal Election, thinking that I was voting for a party that held strong beliefs in environmental

issues. Obviously this is not the case with the proposal to halve the area of Marine National Parks. Oceans throughout the world

are under threat due to over fishing, rising water temperatures and pollution and you have decided to seriously reduce those areas

where nature has some chance of surviving and perhaps even flourishing.

I feel, it seems very short sighted to allow harvesting of OUR reserves for short term gain to the detriment of the long term benefit of

not only Australia but also the rest of the world.

Yours sincerely,

Terry Bonnett.
