

The elected members of Parliament are trusted by the public with the responsibility of governing the Country with care and caution with full and open disclosure of decisions. The Public are carefully watching and deciding who is displaying the leadership in the best interests for the future of this Country.

More than ever before People are aware that the wanton destruction of Our environment will impact both now and in the future on their children and all the children of the world to come.

Therefore it appears that decisions being made or considered that will have long term detrimental effects through poorly considered management planning of changes to marine reserves should be halted and or reversed.

It is so well known and proclaimed by academics and scientists that once our oceans start to die it may well be impossible to bring them back to life.

Consider Our Future.
