

Please do not implement these changes to reduce Australia's marine reserves.

Healthy oceans are critical to the health of the planet and our own very survival.

Our oceans are under ever increasing pressure from pollution, over fishing, oil & gas exploration and climate change.

We must protect and maintain the current level of our marine reserves for all Australians, for generations to come.

Australia's oceans do not belong to the current crop of politicians for them to rape, pillage and plunder at the stroke of a pen.

Please, please, please do not implement these changes.

Thank you
Donna Bugden
I fish
I dive
I sail
AND I VOTE!!!
