

To Whom It May Concern:

I am deeply concerned that the Australian Government is considering cutting the area of ocean Australia protects by 50%. This is outrageous. As hundreds of species go extinct each day due to humans, we should be adding to our ocean's protected areas, not decreasing them.

Please think beyond your political term and of the environment future generations of Australians will inherit - I implore you do not decrease the size of marine sanctuaries.

I sincerely hope this proposal will be abandoned for the foolhardy mistake it is.

Please be sure to add my voice to those of my fellow Australians deeply against the ruination of our oceans.

Yours sincerely,

Georgia Took
