

Dear Sir/Madam and all others,

Here I am again, having to write to beg and plead to people who are supposedly in their jobs to protect not destroy our environment. Unbelievable.

I am at this point in time ashamed to be Australian. Our track record is bad and getting worse. How embarrassing this is for all the world to see.

Come to your senses. Don't create history. Make up for it instead.

And as for my vote...the Libs would have to be joking to think I can support them if this goes ahead. I have been a swinging voter all my life but this one will see me swing any way but LNP.
