

You simply must not cut marine protection! It is false economy, harming first our country and then the planet.

The Coral Sea, Marion Reef, Osprey Reef, Shark and Veme Reefs ... No government has ever taken this many hectares out of conservation before. It's the largest backward step in areas under conservation in history, at a time when our ecosystems are already under unprecedented threat.

I implore you to ditch this crazy plan. Once our environment is destroyed no amount of money will bring it back.

Respectfully,

Marion Gray
