

I'm not sure why these areas of protection are being reduced. Is it purely for commercial gain through commercial fishing ? Fish and marine stocks are already reduced. Why then would our Government encourage further depletion? Ah yes, at the request of business. I sometimes wonder if any politicians have children or grandchildren? Everything seems purely focused on short term financial gain with NO thought for the long term future or what kind of world we are leaving behind. Sometimes I despair.

Yours sincerely
Annette Levering.
