Dear Sir/Madam,

I wish to voice my disapproval of the proposed changes to the well thought and consulted Marine Parks. The original plan had bona fide scientific input and a priority for a sustainable ocean ecosystem. The current changes reverses the decisions made on the intellectual high ground and buries them under the weight of malignant, commercial greed. It is a disaster much repeated by the deranged Liberal government that openly embraces ugly commercialism over environmental beauty and planetary health.

Saving Marine Sanctuaries is a vote for saving this planet from the malignant human vermin killing it. This planet is at war and humans are the enemy. Don't let this be a part of the evil this Liberal government is facilitating.

Kind regards,
Angela Parker.
