

I am writing this to express my real concern at your track record of cutting our marine parks. Your election was not to rob us of our beautiful natural resources but to protect them for all future generations. I am asking you to stop putting commercial choices before the protection of our reefs and sea life that are all ready under severe threat. Please let our children and our children's children be able to visit these amazing places proud that we realised that the dollar does not come before our rare and beautiful natural resources.
