

To the Prime Minister of Australia,

Dear Mr Turnbull, Please tell me I am misinformed. I've been told your government intends to reduce the Marine Parks of Australia by 50% ! Can this be true? The environmental implications are very serious and are a backward step in protecting our marine life. Please reconsider this reckless action if that is in fact your intention. You have been elected to do what is best for our nation , including our land and ocean territory. Please tell I'm misinformed about your intention to reduce the Marine Parks. What are your intentions in this regard?

Wanting to trust you,
Stephen Bennetts
