

Dear sir

I am writing to you because of my concerns about our future.

The best way to leave something for our children is to have sanctuary areas where the impact of our constant attacks on nature have a chance to be lessened.

We can not bury our heads in the sand and think only of making a quick buck in the next couple of years . We need to think of 20, 30 or 100 years into the future to realise how rare and valuable nature will be.

Please more reserves NOT less.

Thanky you

Bronc Krasevac
