

I am going to give it to you straight, I have been favourable to the Liberal Party for some years now. Then when I look at the way Australia is heading, wage's way behind the cost of living, the lack of commitment the Liberal Party has when it needs to spend on infrastructure, always blaming every one else but them selves.

Now you want to cut the Marine Protection, is this so the rich with there mega trawlers can take our fish for free? My answer is simple, like many other Australians are saying. The Liberal Party is in self destruct and I want you all to know I am with drawing my VOTE at the next election because I don't think you are worthy of it.
