

Please do not reduce the marine sanctuaries. I was a proud Australian when these sanctuaries came into being as I believed that Australia was demonstrating to the world that we value and are determined to protect our oceans and all that lives within. I feel desperately sad and frustrated that The Turnbull Government is proposing the massive reduction in true sanctuary. It see it is a purely political move because Malcolm Turnbull has his hand forced behind his back by the right wing Coalition members. It shows no foresight or vision and I am appalled. I have been a Liberal voter but that will no longer be so. Please do not let it happen.

Regards

Jocelyn Fairley
