

For the sake of the planet and what remains of Human chances of surviving another 50 years, never mind the ever diminishing chances of other than human species to survive the depredations of Ravening, Greedy and uncaring Humanity, CEASE YOUR DEPREDACTIONS ON AUSTRALIA'S MARINE NATIONAL PARKS AND RESERVES.

WE, THE PEOPLE, DEMAND that you and your Government cease and desist in your unceasing efforts to give to greedy and rapacious Marine Rapists (called commercial fishing and trawling) everything they want of OUR resources and planet, for the sole purpose of making MONSTER MONEY!

I am sure that their 'lobby and control' bodies are giving generously to the LNP coffers and have offers of well paid jobs for out of office polities, as such seems to be normal in Australia and other so called 'democratic' Capitalist countries. I can only hope that the ABC 4 Corners finds these little perks soon and puts them on national TV, before the ABC becomes totally controlled and owned by News Limited (Murdoch), (as demanded by the Murdoch/Koch Bros. wholly owned and controlled 'Institute for Public Affairs'), which I fear is well advanced, even before the LNP gave in to One Nation.
