

Dear Sir/Madam

Why are you cutting the number and size of marine conservation areas? Is it to save money? Yet you happily spend \$248 million of taxpayers' money on putting up a fence around Parliament House and running a redundant postal survey. Get your priorities right and restore these marine conservation areas for the well-being of your and our descendants.

Haydn Reeder

To the Australian Government

The Australian Government has been charged with the responsibility of protecting Australian seas and oceans so please do just that -DO NOT REDUCE/ALTER/VARY THE MARINE PARK ZONES. Reducing the marine park protected areas and allowing increased fishing both recreational and commercial will impact the natural balance and threaten the eco system.

MOST IMPORTANTLY LISTEN TO THE SCIENTIST AND DO NOT BE SWAYED BY FISHING LOBBY GROUPS - Its exhausting for Australian citizens to always be concerned about what natural recourse will be whittled away by government stealth.

PLEASE NO CHANGE TO MARINE PARKS

PLEASE

Yours truly

Victoria Dartnell
