

To our government,

To my intense disappointment you seem to be intend on ruining something that was great and once again put Australia in reverse gear instead of moving forwards and showing our country of leadership.

It is still not too late for you to change your intended policy and leave a legacy to be proud of instead of being embarrassed.

I urge you to do the right thing and protect our beautiful and fragile ocean ecosystems and protect our tourism industry and reputation at the same time.

Kind regards,

**Claudia Udink**
