

The Australian Government must not consider cutting the area of ocean Australia protects by 50%.

Australia should be a the world leader in protecting the oceans.

Please add to the marine areas to be protected: do not reduce them.

Do not reintroduce trawling and longline fishing.

No Government ever has taken this many hectares out of conservation before. It's the largest backward step in areas under conservation in history.

Please, for the sake of our oceans and marine life, do not reduce the areas under protection.

Sue Barnard
