

Dear Minister for planning, marine and environment,

I wish to let you know of my objection to your proposed reduction in the protected Marine sanctuary's .
For some time now me and many other people have been writing to you to let you know that this is not yours to take.

The protected sanctuaries completely and unequivocally belong to the marine sea life and not to any government or human
For that matter.

I can just imagine what you would be like if all your food was taken from you by a factory fishing trawler and you were left
With nothing to eat except for what the trawler missed.

These protected marine parks are for the protection of the fishing industry as well as the sea life itself.

What will you do when there is no fish left in the fished areas of our oceans?

Oh I know, you will reduce the marine parks by another 50% and so on until the oceans around Australia are dead.

I am very, very unimpressed with the current government and its activities. Very unimpressed.

I propose a new strategy, you ready..... Save the marine parks. Get rid of the factory fishing trawler.

Wow now there's a great idea.

Yours Sincerely

Fraser Fox
