

To the Australian Government,

As an Australian citizen I am concerned at the Australian Government's proposed decision to cut back our Marine Sanctuaries.

I strongly urge you to reconsider and keep the full protection that we now have, with no cut backs or reduction in size. With ever increasing demands on our fish and seafood resources these areas are needed for breeding and to sustain populations.

Please reconsider and keep our Marine Sanctuaries as they are.

Kind regards,

Craig Irving
