

Hi

With what's already occurring in our world today and the bleak outlook globally if we don't quickly change the way we inhabit this beautiful planet, I'm asking and urging you to reconsider the decision to reduce marine protection areas around this beautiful country of ours. I have seen many adverse changes to our reefs and oceans just in my lifetime, so for the sake of our children, and our children's children please endeavour to protect our natural assets and not open them up for a global free for all just for the sake of money. This decision will impact the way I vote from today onwards as it's time our planet comes first, and not the multinational conglomerates end game of destruction for profit.

Please reconsider.

Troy Rowe.
