

Hi there,

As an Australian citizen, residing in Cairns, North Queensland, I am absolutely gutted that you are even considering cutting our marine protection! It appears to me (and I am sure, many other Australians) that the present government has absolutely no respect for our environment - it's one thing after another!

For the sake of the marine life and our environment in general, please **DO NOT CUT MARINE PROTECTION!** Wake up to yourselves! You are contributing to the slow death of Mother Earth!

Think about it - seriously.

Clare Munro
