

Dear Sir/Madam,

I am extremely disappointed about the proposed changes suggesting to reverse protection measures to the Coral Sea.

In the Coral Sea alone the area placed in Marine National Parks has been halved. The same goes for Marion Reef. Even Osprey Reef, one of the top dive sites in the world has had half its area removed from the Marine National Park. **Shark and Vema Reefs have been taken out of the Marine National Park area altogether.**

Midwater trawling is to be reintroduced and it will be now be possible for longlining to start at the southern tip of the Coral Sea reserve and continue all the way to the northern boundary.

No Government **ever** has taken this many hectares out of conservation before. **It's the largest backward step in areas under conservation in history.**

These protections were put in place five years ago and I object for the to be reversed.

Kind regards,

**Birgit Kroeck**
